EXECUTIVE SUMMARY

Computer Science student with hands-on experience in full-stack development, cloud technologies, and IoT systems. Built and deployed real-world applications including a real-time chat app and Android music player. Proven ability to deliver solutions through internships and hackathon-winning projects.

EDUCATION

Bachelor of Engineering in Computer Science Engineering (BE. CSE)
Sti Krishna College of Engineering and Technology, Coimbatore (SKCET)
Academic Year: 2024 - 2028

TECHNICAL SKILLS

- Languages: C++, Python, Java
- Frameworks & Tools: React.js, Spring Boot, Git, Android Studio
- Databases: MySQL, MongoDB
- Technologies: IoT, Cloud (Azure basics)

INTERNSHIP EXPERIENCE

Information Security Analyst Intern
Titan Company Limited | Corporate Office, Bangalore | May 2026 – Jun 2026
• Contributed to the CASB (Cloud Access Security Broker) Audit project, supporting cloud security governance and compliance activities.
• Gained hands-on experience in vulnerability assessment, security monitoring, and enterprise security operations.
Cloud/SAP Intern
Titan Company Limited, Hosur | Jan 2026
• Assisted in migration of on-premise systems to Microsoft Azure.
• Developed practical knowledge through hands-on experience in real-world industry scenarios
Mobile App Development Intern
Pinnacle Labs | Jun 2025 – Jul 2025
• Developed a functional Android music player app using Android Studio and ExoPlayer
• Gained hands-on experience in mobile application development and real-world project execution
• Strengthened skills in debugging, performance optimization, and app design

CERTIFICATIONS

Machine Learning • DSA • Java • Python • HTML/CSS • OOPD • C++ • SQL • Backend Frameworks • MongoDB • PHP & MySQL

PROJECTS

DIY Drone Build

- Designed and assembled a custom FPV drone with integrated flight controller, motors, ESC, and ELRS system
- Worked on component selection, LiPo battery systems, configuration, and hardware troubleshooting
- Gained practical experience in embedded systems and drone integration

AWS Nova Skill Sprint – AI Agent Development

- Developed AI agents using Amazon Nova, Amazon Bedrock, and the Strands SDK
- Explored tool integration, memory, streaming, and Model Context Protocol (MCP) support
- Gained hands-on experience in AI agent development and cloud-based AI services

ClimateSync (IoT Weather Monitoring System)

- Developed a NodeMCU-based weather monitoring prototype with sensor integration
- Collected, processed, and visualized real-time environmental data
- Gained practical experience in IoT, C++, and embedded systems

Personal Portfolio Website

- Designed and developed a responsive portfolio using React, Vite, and Tailwind CSS
- Implemented interactive UI animations and project showcases
- Deployed the portfolio using Vercel

Food-Truck Vendor Application System

- Developed a web-based platform for vendor registration, applications, and license tracking
- Built backend services using Java Spring Boot and MySQL
- Implemented role-based workflows and JWT authentication

YapiChat (Full-Stack Chat Application)

- Built a 1-on-1 messaging application using React, Supabase, and Vercel
- Implemented private messaging, media sharing, and voice note functionality
- Managed application development, integration, and deployment

PulseBeat (Android Music Player)

- Developed an Android music player using Kotlin and ExoPlayer
- Implemented background playback, favorites management, and interactive UI features
- Enhanced Android development and mobile UI/UX skills

Turf Management System

- Developed a backend platform for turf booking, scheduling, and user management
- Built REST APIs using Java and Spring Boot
- Worked on booking workflows and backend application architecture

---

HACKATHONS PARTICIPATIONS

1st Place – Tech Savishkaar 3.0 (National Level Hackathon)
Vasavi College of Engineering, Hyderabad | 2025
• Developed an innovative solution under the “Student Innovation” domain
• Collaborated with a team to design and present a problem-solving prototype **(Smart Health & Driving Safety System)**
• Secured 1st place and won a cash prize of ₹16,000
• Demonstrated strong problem-solving, teamwork, and presentation skills

Hackathon Participant – CREOVATE
Sri Krishna College of Engineering and Technology | 2025
• Participated in a college-level hackathon focused on innovation and development
• Worked with a team to brainstorm and build a prototype solution
• Gained experience in rapid problem-solving and collaborative development
